

# Outdoor Learning: Introduction

Spending regular time outside the classroom encourages pupils to work in a different way than in the classroom promoting the development of problem-solving skills, creativity, independence and confidence. There are opportunities for outdoor learning across the curriculum which allow a greater range of subjects to be taught through both classroom-based activities and first-hand experience.

British explorer Sir Ranulph Fiennes believes that “There is no such things as bad weather, only inappropriate clothing”. This resource is designed to support Early Years and Key Stage 1 teachers deliver a cross curricular year-round programme of learning outside the classroom. Used together with the subject link document and seasonal and year-round activities there are a range of activities which can be tailored by teachers for their class.

Share photos of your class using the resource throughout the year with us tagging #PMoutdoors to be in with the chance of winning a class set of Bugnoculars.

Email [hello@2simple.com](mailto:hello@2simple.com) to add your outdoor learning ideas to the resource.

# What is Outdoor Learning?

Outdoor Learning refers to organised, educational learning in an outdoor setting involving journey-based experiences in which students participate in a variety of adventurous challenges.

- It values direct experience and provides a meaningful contrast to the indoor classroom which many pupils will find more motivating than classroom learning. When properly supported, spending time outside can become a stimulating source of fascination and personal growth for pupils as well as providing learning breakthroughs.

- It promotes active learning where participants learn through what they do, encounter and discover. Pupils will learn about the outdoors, themselves and each other, while also learning crucial outdoor skills. Active learning readily develops the learning skills of enquiry, experiment, feedback, reflection, review and cooperative learning.

- It broadens horizons and promotes new interests. There is no limit to the experiences and curiosities that outdoor environments and activities can stimulate. Pupils frequently discover their own potential, abilities and interests that can often surprise themselves and others.

# What Do People Say About Outdoor Learning?

*'Outside, quiet children start to talk more and children who find it hard to be constrained begin to relax. Children need to be outside long enough to feel at home there.'* –

**Emma Shaw - Founder of Into The Woods Outdoor Nursery**

*'Earth and sky, woods and fields, lakes and rivers, the mountain and the sea, are excellent schoolmasters, and teach of us more than we can ever learn from books.'*

**Sir John Lubbock – Author The Pleasures of Life**

*'Nature breeds curiosity: it helps to grow explorers rather than robots. It reminds us that we are part of something bigger. It grounds us, calms us.'*

**Dr Ben Palmer-Fry - Educator, Conservation worker, Broadcaster and Rewilder**

*'If we want children to flourish, to become truly empowered, then let us allow them to love the earth before we ask them to save it.'*

**David Sobel – Environmentalist and Educator**

# Benefits of Outdoor Learning

Outdoor learning brings a broad range of benefits to pupils, including:

- Enhanced personal and social communication skills.
- Increased physical health.
- Enhanced mental and spiritual health.
- Enhanced spiritual, sensory, and aesthetic awareness.
- Ability to assert personal control and increased sensitivity to one's own well-being
- Develops self-esteem, encourages personal responsibility, co-operation with and respect for the needs of others.
- Extends personal horizons through greater appreciation and understanding of the world and its peoples around them.
- Understanding of the need for sustainable relationships between people and their environment.
- Enhanced practical problem solving and teamwork skills.
- Promotes a positive and knowledgeable response towards personal health and wellbeing.
- Develops a deeper relationship with nature.
- Enhanced personal and social development.
- Increased knowledge on how to overcome adversity and increase resilience.
- Contact with the natural world offering children experiences that are unique to the outdoors such as direct contact with the weather and the seasons.
- Playing and learning outside helps children to understand and respect nature, the environment and the interdependence of humans, animals, plants, and their respective lifecycles.
